**Education & Self-Employment.**
Education

We feel that we need to focus on Higher Education so that talented and able individuals from the community can gain the skills and qualifications required to grab contemporary opportunities and walk at pace with the fast-evolving world.
Self-Employment

There are certain individuals who cannot pursue their academic aspirations because they have to financially support their families from a very young age. For such individuals, we need to offer a window of opportunity by helping them financially for Self Employment to better their means of livelihood and encourage them to establish micro-enterprises.
